ZTV to 200m Blade Tip

- Clashindarroch Wind Farm Extension Visible Only
- Existing Clashindarroch Wind Farm Visible Only
- Both Clashindarroch Wind Farm Extension and Existing Clashindarroch Wind Farm Visible

NB The Zone of Theoretical Visibility (ZTV) image illustrates the theoretical extent of where turbines will be visible from assuming 100% visibility. It is generated using terrain data only and does not take into account any screening that vegetation or the built environment may provide. It is 'as such' a worst case ZTV and the actual extents of visibility are likely to be much less extensive.
